15. Explain the duties and disqualifications of directors under the Companies Act, 2013

MODULE 4 – Company Meetings and Other Provisions

16. Explain the meaning and different types of company meetings.

17. Differentiate between an Annual General Meeting and an Extraordinary General Meeting. 18.

Explain the provisions relating to notice, quorum and voting in company meetings. 19. Explain

the different types of resolutions and discuss the importance of minutes of a meeting.

20. Explain the concept and importance of Corporate Social Responsibility (CSR) under the Companies

Act, 2013.

Subject 4: Indigenous Banking and Wealth Management

Module 1: Indigenous Banking and Wealth Management

1. Explain the evolution of indigenous banking into modern wealth management. 2. Discuss the major functions of indigenous bankers and their modern equivalents. 3. Explain the role, responsibilities and accountability of a Gumastha in indigenous banking. 4. Compare the Gumastha with a modern Relationship Manager.
5. Discuss the role of indigenous banking practices in the development of modern financial institutions and services.
6. Explain the relevance of Indian Knowledge Systems in indigenous banking and modern wealth management.

Module 2: Dharma in Finance

7. Explain the concept of Dharma in Finance and discuss its relevance in modern financial practices.
8. Discuss the principles of Satya, Nyaya and Anuchita Vridhi and their relevance to modern finance.
9. Explain the role of ethical principles in ensuring fair and responsible banking practices. 10. Discuss the relationship between Dharmic principles and modern ESG practices. 11. Explain the importance of confidentiality, social obligation and non-harm in financial and business practices.
12. Discuss how traditional ethical norms have evolved into modern financial regulations and regulatory practices.

SUBJECT-KAUTILYA TRADING PHILOSOPHY(MARKETING)

Subject:05

1.Who was the Paṇyādhyakṣa, and what was his role in the Mauryan administration? 2.Describe the key features of urban marketplaces in ancient India.
3.How did the specialization of sections (grains, textiles, jewellery, etc.) benefit both traders and government officials in urban markets?
4.What is an Agency House? Describe its general functions during the colonial period.
5.Differentiate between Permanent Bazaars and Weekly Bazaars (Haats), with examples.
6.Define private enterprise and list its key characteristics.
7.How did Kautilya's model help in generating higher revenue for the state? Explain with examples.
8.Compare private enterprise and state enterprise as understood in Kautilya's economic philosophy, using a real-life example for each.
9.What is meant by the "Primacy of the Treasury (Kośa)" in Kautilya's Arthashastra? 10,Explain the relationship between a strong treasury and military strength according to Kautilya. 11.What is meant by "profit regulation" in Kautilya's trading philosophy? Explain with an example. 12.Explain the different types of punishments prescribed for fraudulent trading practices. Define Vārtā and describe its three core activities.
13.Using Indian Railways as an example, explain the concept of a state enterprise in the modern context.
14.Which sectors did Kautilya recommend be left open to private individuals? Justify his reasoning.
15.Discuss the consequences Kautilya associated with wealth earned through dishonest means.

16.Who were the Jagat Seths, and why were they significant in Indian economic history?
17.Explain the Hundi system and its significance as an early banking innovation. 18.Explain the role of supply in price determination, with examples of both low and high supply situations.
19.Explain the meaning and examples of adulteration, and its effects on consumers.
20.What were the consequences of neglecting Vārtā according to Kautilya's Arthashastra?

SUBJECT -TOURISM MARKETING MANAGEMENT

Subject-06

1. Explain psychographic segmentation with a suitable example.
2. How does purpose-of-visit segmentation help tourism businesses design better services? 3. Differentiate between an "Organized Mass Tourist" and an "Individual Mass Tourist" as per Cohen's model.
4. Explain how income-based segmentation influences a tourist's choice of accommodation. 5. How does tourism market segmentation help increase marketing effectiveness? Give an example 6. Explain how sustainable tourism helps in preserving cultural heritage, with an example. 7. What is the objective of the Swadesh Darshan Scheme?
8. Explain how the Dekho Apna Desh campaign supports sustainable tourism.
9. How does sustainable tourism promote balanced regional development?
10. Explain, with an example, how sustainable tourism strengthens India's economy without depleting resources.
11. Explain how tourism can lead to lifestyle changes in local communities.
12. How does overcrowding due to tourism affect the cost of living for residents? 13. Explain "conservation funding" as a positive environmental impact of tourism, with an example. 14. Explain the concept of habitat destruction caused by tourism, with an example. 15. Differentiate between heritage tourism and cultural tourism with examples.
16. Explain how Cohen's typology helps tourism businesses design different services for different tourists.
17. Why does Plog's model suggest that personality is not the only factor influencing travel decisions? Explain with an example.
18. Explain the difference between a Mid-Centric and an Allocentric tourist, with examples. 19. How does Cohen's typology help in improving tourism marketing strategies? 20. Using Ladakh as an example, explain how one destination can attract different types of tourists under both Cohen's and Plog's models.

Subject 07 (Finance): Cost Accounting (Prof. Mayur Pillai)
Assignment sheet is shared

Assignment Questions for Cost Accounting

1. The following information is available from the books of MK Ltd. for the year 2020 and 2021.

Particulars	2020	2021
Stock Turnover Ratio	4 times	?
Opening Stock (₹)	40,000	30,000
Closing Stock (₹)	80,000	50,000
Purchases (₹)	?	3,40,000

From the above information find out:

1. Purchases and Cost of Goods sold for the year 2020.
2. Stock Turnover Ratio and Cost of Goods Sold for the year 2021.

2. Vosco Ltd. has collected the following data for one of its Material X which is as follows:

Annual demand 48,000 units. Cost per item ₹ 20
Interest of the locked-up capital 3%, pilferage while holding inventory 2%, other holding cost 5%
Order processing cost ₹ 120 for each order.

1. What should be the EOQ?
2. Calculate the number of orders to be placed in a year.
3. Calculate the Total Annual Ordering Cost.
4. Calculate the Total Annual Carrying Cost.
5. Calculate the Total Annual Material Cost.

3. A company has three production departments X, Y and Z and two service departments S-1 and S-2. The following estimates of expenses are available :

Particulars	₹
Staff Canteen Expenses	5,40,000

Insurance on Machinery	7,68,000
Insurance on Buildings	7,04,000
Staff Welfare Expenses	10,80,000
Power	5,28,000
Rent and Rates	2,56,000
Depreciation on Machinery	7,20,000
Building Repairs	1,65,000
General Expenses (Proportionate to Direct Wages)	5,00,000

Other technical details about departments are as under :

Particulars					
Floor Space ('000 sq. ft.)					
Number of Workers		10			5
H.P. of Machine					
Cost of Machine (₹ in lakhs)	5	2	1	1	1
Direct Wages (₹ in '000)		20252 5		15	15

Show Primary Distribution of Overhead Expenses.

4. A worker produced 200 units in a week's time.
   Working hours in a week are 45.

The guaranteed weekly wage payment is ₹ 81.

The expected time to produce one unit 18 minutes.

What will be the earnings of that worker under Halsey (50% sharing) premium plan and Rowan bonus schemes?

6

5. A machine costs ₹ 12,00,000 and is deemed to have a scrap value of 10% at the end of its effective life (12 years).

Ordinarily the machine is expected to run for 1,800 hours per year but it is estimated that 200 hours of the time will be lost for normal repairs and maintenance. Other details in respect of machine shop are as under :

Details	₹
Annual wages, bonus and provident fund contribution of operators for the shop	1,60,000
Rent of shop per year	1,20,000
General lighting of the shop per month	6,000
Insurance premium for one machine per annum	28,000
Shop Supervisor's monthly remuneration	15,000
Cost of repairs and maintenance per machine	24,000

Power consumption of one machine per hour 10 units @ ₹ 5 per unit

There are two identical machines in the shop.

Compute the machine hour rate from the above details

6. Calculate the earnings of Workers A, B and C for the particular month.

Also calculate Labour Cost of Worker A, B, C and allocate the labour cost to each job.

Particulars	A	B	C
1. Basic Wages (₹)	200	300	400

7

2. Dearness Allowance	50%	50%	50%

Contribution to Provident Fund of the employer as well as that of the employee (8% of Basic and D.A.).

Contribution to ESI of the employer as well as that of the employee (2% of Basic and D.A.).

The three workers were employed on jobs X, Y and Z in the following proportions.

Particulars	Job X	Job Y	Job Z
1. Worker A	20%	30%	50%
2. Worker B	40%	20%	40%
3. Worker C	60%	10%	30%

7. Calculate the machine hour rate to cover the overhead expenses related to a machine.

Particulars	₹
1. Cost of the machine	9,50,000
2. Installation charges of the new machine	75,000
3. Estimated scrap value of the machine	25,000

4. Oil and Lubrication	7,500 per quarter
5. Consumable Stores	1,000 per month
6. Consumption of Electric Power per hour	20 units

7. Rate of Electric Power per unit	0.50
8. Foreman's salary per month (1/6th for this machine)	6,000
9. Cotton waste etc. each Machine (₹ per quarter)	5,000

It is estimated that the life of the machine is 10 years and will work for 10,000 hours per annum.

8. The Purchase Department of your organisation has received an offer of quantity discounts on its order of materials as under :

Price Per Tonne	Order (In Tonnes)
₹ 2,800	Less than 1,000
₹ 2,760	1,000 but less than 2,000
₹ 2,720	2,000 but less than 4,000
₹ 2,680	4,000 but less than 6,000

₹ 2,640	6,000 and above

The annual requirement of the material is 10,000 tons. The delivery cost/ordering cost per order is ₹ 1,800 and the annual stock holding cost/carrying cost is estimated at 20 percent of the average inventory.

The purchase department wants you to consider the following purchase options and advise which among them will be the most economical ordering quantity, presenting the relevant information in a tabular form. The purchase quantity options to be considered are 800 tonnes, 1,000 tonnes, 2,000 tonnes, 4,000 tonnes and 6,000 tonnes.

9

9. Inventory records of Shrindhi Ltd. shows the following information

Particulars	Material R (₹)	Material S (₹)
Material in hand on 1-4-2022	1,00,000	2,00,000
Material in hand on 31-3-2023	50,000	75,000
Material purchased during the year	4,50,000	5,75,000

Calculate :

1. Material turnover ratio regarding each of these materials.

2. Express in number of days the average inventory held.

3. State which of the two materials is slow moving material.

10. The following data was obtained from the books of Spaco Ltd. for the year ended 31st March 2023.

Particulars	A	B	C	D	E

1. Direct Materials (₹)	90,000	1,25,000	75,000	25,000	35,000
2. Direct Wages (₹)	70,000	90,000	50,000	25,000	15,000
3. Floor Space Area (Square Feet)	1,000	1,500	750	650	15,000

4. Value of Plant and Machinery (₹)	4,50,000	8,50,000	3,50,000	2,00,000	1,50,000
5. Number of Employees	9	11	10	5	4
6. Value of Stock (₹)	12,000	15,000	13,000	-	-
7. Kilowatt hour (kWh)	12	16	7	-	-
8. Number of Light Points	16	20	12	7	5

Departments A, B and C are Production Departments.
Departments D and E are Service Departments.

Particulars	₹
1. Lighting	13,500
2. Contribution to Provident Fund	16,250
3. Labour Welfare Expenses	18,900
4. Insurance of Plant and Machinery	15,000

5. Depreciation of Building	56,250

You are required to prepare Primary Overhead Distribution Summary for the departments showing.

Subject 8: Supply Chain Management

T.Y.B. Com. (M.S.) - Supply Chain management	
Topic	**Assignment**
Bull Whip Effect	**Solve Worksheet**
Types of SCM	**Solve Worksheet**
Components of SCM	**Solve Worksheet**
Role of IT in SCM	**Solve Worksheet**

3PL and 4 PL (Logistic Outsourcing)	**Solve Worksheet**

Subject 9: E - Commerce (Marketing)

MODULE 1: Introduction to Electronic Commerce – Evolution and Models

1. Explain the evolution of E-Commerce. Discuss the history and development of Electronic Commerce and explain the roadmap of E-Commerce in India.
2. Explain the major benefits and challenges of E-Commerce. Discuss how E-Commerce has changed the traditional way of conducting business.
3. What is an E-Commerce business model? Explain the characteristics of Business-to Business (B2B) and Business-to-Consumer (B2C) E-Commerce with suitable examples. 4. Explain the process of B2C E-Commerce. Also explain the need and importance of B2B E-Commerce.
5. Explain the different models of E-Commerce. Discuss the alternative models of B2B E Commerce and explain the E-Commerce Sales Product Life Cycle (ESLC) Model.

MODULE 2: World Wide Web and E-Enterprise

1. What is the World Wide Web? Explain the reasons for building a business website and discuss the benefits of having a website.
2. What is a Domain Name? Explain the process of registering a domain name. Also discuss the important principles of website design.
3. Explain the role of a website in B2C E-Commerce. Discuss the important features that a website should have for providing an effective online shopping experience. 4. What is Electronic Data Interchange (EDI)? Explain paperless trading and discuss the advantages and disadvantages of EDI.

5. Explain the new technologies used in E-Commerce. Discuss the applications of Artificial Intelligence, Machine Learning, Big Data, Cloud Computing, IoT, Blockchain and AR/VR in E-Commerce.

MODULE 3: E-Marketing and Electronic Payment System

1. What is E-Marketing? Explain its scope and various techniques of E-Marketing. Discuss traditional web promotion and the role of social media in E-Marketing.
2. Explain the different customer strategies for online purchasing and support activities. Discuss the advantages and disadvantages of online shopping.
3. What is an Internet Business? Explain and justify the need for conducting business through the Internet. Discuss the important factors for a successful Internet business. 4. What is an Electronic Payment System? Explain its characteristics and discuss prepaid and post-paid E-Payment systems. Also explain the different types of payment systems. 5. Explain the risks associated with E-Payment Systems. Discuss operational, credit and legal risks, risk management options, and the principles of E-Payment.

MODULE 4: Cyber Law, Crime and Protection

1. Explain the concept of Cyber Law. Discuss the world scenario of Cyber Laws, Cyber Laws in India, and their limitations. Explain the role of the Consumer Protection Act, 1986 in protecting cyber consumers.
2. What is Cybercrime? Explain different types of cybercrime with special reference to hacking, web vandalism, e-mail abuse and software piracy. Also discuss the sources of cyber threats.
3. Explain the various methods of protecting E-Commerce assets and intellectual property. Discuss the importance of electronic records as evidence.
4. Explain client-server network security. Discuss the importance and working of electronic

signatures in securing electronic transactions.

5. What is encryption? Explain encryption techniques and discuss the concepts of public key and private key infrastructure in E-Commerce security.

Subject 10: Ethics in Financial Markets

Module 1: Introduction to Financial Markets

1. Explain the structural flow of funds within an economy. Illustrate your answer with a detailed flowchart/ diagram.
2. Identify and explain the roles of the various participants in operating within the financial ecosystem.
3. Define the capital market and explain its core features and significance.
4. Define a commodity market and explain its primary economic functions.

5. Elucidate the roles of the key financial market regulations in India (e.g. RBI, SEBI).

Module 2: Ethics in Financial Markets

1. Define ethics within the context of financial markets and explain its overall significance.
2. Evaluate the specific features and practical applications of Utilitarianism within financial markets.
3. Elucidate the Deontology theory of ethics and its focus on duty and rules. 4. Describe the core concept of Virtue Ethics and its focus on moral character. 5. Propose viable solutions and strategies to address and mitigate ethical challenges in financial markets.
